

cupcake toppers

Print this sheet on cardstock. Trim the squares to the size you want. For circle toppers, punch the circles with a 2-inch circle or scallop punch, leaving a little of the background as a border. Then just glue or tape them to lollipop sticks (which you can buy at Michael's or Wal-Mart), and place them in the cupcakes.

in addition to cupcake toppers, you can use these for:

napkin rings • favor tags • birthday banners • table decor • treat labels • stickers • straw toppers
